Portfolio / Github Link: https://github.com/Nondumison

Professional Summary

Highly skilled Front-End Developer with hands-on experience in modern web development technologies, including React, Redux, and Material-UI. Proficient in building responsive, user-centric web applications with a focus on clean, maintainable code and seamless user experiences. Eager to bring a design-oriented and problem-solving mindset to innovative teams, contributing to the creation of scalable and high-performance applications.

Education/Skills Training

Umuzi Academy – April 2024 – Current
Advanced Software Development Program
Technologies: React, Redux, React Native, JavaScript, PostgreSQL, Node.js

Umuzi Academy – April 2018 – January 2019
Software Developer Learnership
Focused on web and game development using HTML5, CSS3, JavaScript, Node.js, ExpressJS, MongoDB, and Phaser 3.

WeThinkCode – March 2017
C Programming Bootcamp
Mastered C programming with a focus on peer-to-peer learning and hands-on Unix system experience.

Umuzi Academy – 2019
NQF Level 5, Computer Science and Information Systems

Ekurhuleni West College – 2017
NQF Level 4, Computer Science and Information Technology

Employment Experience

Software Developer
Eldo Energy, Sandton – February 2019 – December 2020

- Developed React-based applications, managing the complete project lifecycle from initialization to deployment.
- Transitioned projects to use React hooks, ensuring modern architecture.
- Configured development tools such as ESLint, Prettier, and Flow for better code quality and static type checking.
- Successfully managed version control and release processes using tools like Commitizen and Conventional Commits.

Key Achievements:

- Updated React to support hooks, improving project efficiency.
- Implemented advanced debugging tools like Babel plugins.

- Developed optimized production builds and streamlined the release process with automated scripts.

Competencies

Technical proficiency in JavaScript, React, React Native, Redux, Node.js, and PostgreSQL
Continuous learning and adaptability
Strong communication skills
Problem-solving and analytical thinking

Technical Skills

Frontend: HTML5, JavaScript, React, React Native, Redux, Material-UI

Backend: Node.js, Express.js, PostgreSQL, MongoDB

Tools: Git, ESLint, Prettier, Flow, Babel, Commitizen, Yarn, Storybook

Game Development: Phaser 3

Hobbies and Interests

Designing posters and managing social media

Exploring new technologies and programming languages

Engaging in outdoor activities
